

CANNING FRUIT PRODUCERS' ASSOCIATION INMAAKVRUGTE PRODUSENTE VERENIGING

APRICOTS: MAXIMUM RESIDUE LIMITS FOR DECIDUOUS FRUIT INTENDED FOR PROCESSING PURPOSES

Information contained on these pages regarding restricted use of crop protection chemicals has been compiled from information presently available and is provided as guidance to industry. It is recorded that the producer must, however, follow the instructions and or directions of use as prescribed by the suppliers of the chemicals and at all times comply with the restrictions and standards of Global Gap.

These guidelines are aimed at providing the regulatory standards and is not intended as commercial standards. Commercial standards may vary according to buyers' needs and that of their markets. The Canning Fruit Producers' Association can, however, not accept any liability for its accuracy or content and users who rely on this information do so at their own risk.

Please use the most stringent of the EU and SA standards or according to the buyer's specific specification.
